Apex Institute of Technology - Internship & Industrial Training Guidelines

[FICTIONAL DEMO DOCUMENT FOR SMART COLLEGE ASSISTANT AI - APEX INSTITUTE OF TECHNOLOGY]

1. Eligibility & Approved Timelines

• B.Tech students are eligible to undertake industrial internships starting from the completion of the 4th semester.

• Mandatory Internship: Every student must complete at least 6 weeks of industrial training or internship prior to graduation for a total of 3 academic credits.

• Full-semester internships (8th semester) are permitted only for students with a CGPA >= 7.50 and no active backlogs/arrears who have received an offer from a Tier-1 product or core company.

2. No Objection Certificate (NOC) Procedure

• Step 1: Obtain the official Internship Offer Letter from the prospective employer detailing role, stipend, start date, and mentor contact.

• Step 2: Submit an online NOC request via ERP portal under 'Training & Placement -> Apply NOC' along with the offer letter copy.

• Step 3: Department Internship Coordinator and HOD review the technical alignment of the company profile within 3 working days.

• Step 4: Dean of Academic Affairs issues the stamped official college NOC.

• Students starting internships without an approved college NOC will not receive academic credits and cannot claim attendance waiver.

3. Evaluation & Submission Deliverables

Upon completion, the student must submit: (a) Internship Completion Certificate, (b) Weekly Performance Diary signed by industry supervisor, and (c) Comprehensive Project Report (minimum 25 pages). Final assessment is conducted via viva-voce examination in the respective department.
